3. Создайте продукт с одноименным модулем и настройте его параметры:

Products/Services

Edit Product

Details Pricing **Module Settings** Custom Fields Configurable Options Upgrades Free Domain

Module Name 4VPS.su

Server Group None

Location Испания, Ма Tarif cx11 (RAM: 2Gb
For full list please check the Addon page

Template CentOS 8 Str

Automatically setup the product as soon as an order is placed

Automatically setup the product as soon as the first payment is received

Automatically setup the product when you manually accept a pending order

Do not automatically setup this product

Save Changes Cancel Changes

4. Дополнительно можно создать настраиваемые параметры (Configurable Options) что бы дать клиенту возможность изменять характеристики при заказе и впоследствии.

Для этого переходим в раздел System Settings - Configurable Options и создаем новую группу (в данном примере это 4vps)

Clients Orders Billing Support Reports Utilities Addons

Configurable Option Groups

Configurable options allow you to offer addons and customisation options with your products. Options are assigned to groups and groups can then be applied to products.

+ Create a New Group Duplicate a Group

Group Name	Description
4vps	

При создании, назначаем ее нужным продуктами:

Configurable Option Groups

Manage Group

Group Name 4vps

Description

Assigned Products

- Group 2 - default
- Group 2 - Cloud Server
- Group 2 - PowerDNS
- Group 2 - VPN Account
- Group 2 - Other
- Group 2 - 4VPS**
- Group 2 - 4VPS2**
- Group 11 - Тест

Далее, переходим к редактированию этой группы, и создаем нужный параметр, например, дополнительные IP-адреса:

Опции добавляются в формате **ID_датацентра** | отображаемое_имя и **ID_шаблона** | отображаемое_имя

Идентификаторы датацентров доступны на странице Addons - 4VPS.su на вкладке списка тарифов

23	GR-cx101	20	64	200	1113
24	GR-cx111	30	80	250	2240
25	GR-cx121	40	94	300	3080

Locations as string:
1 | ОАЭ,2 | Канада,5 | Нидерланды,6 | Россия,7 | США,8 | Германия,9 | Испания,10 | Финляндия,11 | Великобритания,12 | Франция,13 | Украина,14 | Австрия,15 | [[9]Германия,16 | [[9]Нидерланды,17 | Low Price,22 | [[9]Россия,45 | Италия,46 | Гонконг,47 | Швейцария,48 | Португалия,49 | Швеция,51 | [r9N]Нидерланды,52 | США(Феникс),53 | Турция,54 | Литва,56 | Эстония,57 | Греция

Важно! WHMCS не поддерживает динамическую подгрузку полей, поэтому список шаблонов должен состоять из тех, которые поддерживаются всеми локациями.

При изменении параметров опции DC и OS будут скрыты

5. Опционально создайте дополнения для продукта (Product Addons) с модулем **4VPS.su Backup & Additional IPs**:

Product Addons - Edit Addon

Details Pricing **Module Settings** Custom Fields Applicable Products Associated Download

Module Name 4VPS.su Backup & Additional IPs ▾

Addon Type Independent Product - Provision a standalone service using the selected module
 Add-On Feature - Provision an add-on feature to a parent service with the same module

Product Type Other ▾

Server Group None ▾

Type Backup ▾ Value 3
Backup
Additional IPs
Enter backup period if Type set as backup or amount of additional IPs

Automatically setup the addon as soon as an order is placed
 Automatically setup the addon as soon as the first payment is received
 Automatically setup the addon when you manually accept a pending order
 Do not automatically setup this addon
